Is Your Workplace Safe?

Did you know that 28.2 million days were lost due to work-related ill health or injury in 2013/14?

It is an employer's duty to protect the health, safety and welfare of their employees and other people who might be affected by their business. This includes providing sufficient information, instruction and training to employees to allow them to work in a way that does not put themselves or others at risk.

The **QA Level 2 Award in Health and Safety in the Workplace (QCF)** is ideal for all employees, as it helps candidates develop a greater understanding of health and safety issues and the role that everyone plays in maintaining a safe working environment. What's more, not only is this a regulated and nationally recognised qualification, it is also fully supported by Proskills, making it the ideal health and safety course for organisations throughout the UK.
